Lookin' Around with 'Mac'

Bryce Canyon is southern Utah is famous as one of Nature's masterpieces. An example of tremendous natural erosion of pink limestone, its chief charm is in the intricate patterns of standing columns and shafts and its delicate coloring in white, salmon and pink.

It has been 18 years since I saw Bryce Canyon but last Sunday I thought for a moment I was seeing its again. But I wasn't: it was an abandoned hydraulic mine hardly a dozen miles from Nevada City.

The Malakoff Diggings, a mammoth excavation on the western edge of North Bloomfield, may be a commonplace sight to local residents who have roamed these hills but it is a delightful experience to those who see it for the first time. When we learn that its fluted columns and massive canyons were made by man in only a few years of feverish effort, the spectacle is even more impressive.

Perhaps the most striking similarity of Malakoff to Bryce is the coloring. My memory may have failed me but I think the same delicate pastel shades dominate in either case.

The Union Pacific and its concessioners have made big business out of Bryce. But Malakoff is rarely mentioned locally. I've never seen a picture or description in print. With adequate publicity, Malakoff could be as important to Nevada City—in dollar value—as the trout fishing season is. But I'm not sure I would want it that way. The isolation imposed by mountain byways and the quaint quiet charm of North Bloomfield would be lost in a cloud of dust if thousands of tourists swarmed the area.

* * *

To students of the high school journalism class we are indebted for much of the news writing in this edition. But having a gang of charming girls (arf, arf) around the shop threw Ken and me off stride. Our editorial page vanished in the mixup. So some of our political conclusions must wait until next week. We hope to discuss reasons for The Nugget's endorsement of candidates on the June 6 ballot . . . And, of course, the press would break down this week. But who wants a soft life?

JOURNALISM STUDENTS REPORT LOCAL NEWS

The journalism class of Nevada City high school again had the good fortune to work on the Nevada City Nugget. The students collected news and wrote articles for the paper.

The class had worked on the Nov. 11, 1949, issue and were very happy when asked to do so again.

Students spent Wednesday and Thursday in The Nugget office. JoAnn Waechter was acting editor with her staff consisting of Blanche Silva, Doris Hedges, Jenell Stinchfield, Audrey Foote, Pat Dames and Maxine Ivey. The girls enjoyed themselves immensely besides gaining some valuable experience.

Mrs. Margaret Stevens is the class advisor.

The class also visited the office of the Grass Valley Union on Tuesday of this week. The students were fascinated by the teletype machines and huge flatbed press. Students who visited the Union were Blanche Silva, Doris Hedges, Jo Waechter, Pat Dames, Maxine Ivey, Abbey Salter, Pat Sturtevant, Jenell Stinchfield, Audrey Foote, Bob Thompson, and Diane Poulsen.

Mrs. Stevens accompanied the group.—Jo Waechter.

CONCERT DRIVE HELD OVER ANOTHER WEEK

The drive for membership on the Twin Cities Community Concert association was extended to include this week when a check-up Saturday night revealed the memberships were short 100 of the required number.

Lloyd Geist, chairman of the association, said, "Any person who has not been contacted by volunteer workers and wishes to join the drive, write a check payable to the Twin Cities Community Concert and mail to me at 426 Cross street, and a receipt will be sent in the return mail. If it is not convenient to do tnis, telephone me at 98 during the day and in the evening at 533W."

Selections for the concert are made according to the money collected for membership sold during the drive.

The low cost brings the twin cities more top-notch musical value for the money than a member could get in a larger area, however the same artists appear here who are heard in the big city.—Doris M. Hedges.

IOOF GRAND MASTER WILL BE HERE JUNE 13

Ross R. Rittenhouser, Santa Cruz, Grand Master of the International Order of Odd Fellows of California, will visit Oustomah Lodge No. 16 in Nevada City on Tuesday, June 13, according to an announcement by Peter Cole, Noble Grand. SCHOOL DESK OF PAPER MAGNATE IS MUSEUM STAR

The Nevada County Historical Museum will be open three days this weekend: Saturday, Sunday and Tuesday, Memorial Day.

The museum which is bigger and better than ever will be open to the public between the hours of 10 a.m. and 2 p.m.

One of the features of the display at the museum, which is located on lower Main street in the old fire house, is a desk from the Moore's Flat school house during the years 1860 to 1890. The school was attended by Isadore Zellerbach, whose family was among the earliest pioneers of Nevada county. The family started the paper house that has grown into the largest paper distribution firm on the west coast.

Other oddities your editor noticed in a hasty observation of the museum included Richard Jeffrey's first automobile built in Grass Valley in 1900; an 1857 hydraulic nozzle; an 1846 melodian from Moore's Flat, county jail locks of 1856, the early day fire equipment, old photographs of early day pioneers and scenes.

Being a railroad fan, your editor, of course, was taken by the early day pictures of the Nevada County Narrow Gauge railway and being a connoisseur of women we noticed the pictures of Lola Montez, Lotta Crabtree and Emma Nevada. We were unsuccessful in finding a picture of Eleanor du Mont.

Another item that struck our fancy were three old time geographies of the world, and particularly of California. One was published in 1876 and indicated that Nevada City was the fourth largest city in California at the time. Two other interesting geographies were of a decade later.

MEMORIAL DAY RITES AT SEAMAN'S, GRAVES

Memorial day services will be held Tuesday at 11 a.m. at Seaman's Lodge, Pioneer park, with members of the American Legion, Veterans of Foreign Wars, their Auxiliaries and Gold Star Mothers, participating, according to Olaf Bjornstal, VFW Post No. 2655 commander, who is in charge of exercises.

Following the exercises at the park, the groups will visit all cemeteries where veterans are interred.

Commander Bjornstal said rifle squads and color guards will participate and featuring the following ceremonies will be the playing of "Taps" by Buglers Howard Tryon of the VFW and Roy Berryman of the Legion.

The public is cordially invited to the ceremonies, Bjornstal declared.—Doris M. Hedges.

ALMOST FIVE MILLION REGISTERED IN STATE

California's largest primary election voter registration was announced by Secretary of State Frank M. Jordan as 4,925,369.

Jordan said although the registration was the greatest for any primary in the state's history it failed by 136,628 to equal the 1948 general election registration of 5,061,997.

However, Jordan pointed out, the present registration is a healthy indication as in January of 1949 there were 862,168 names stricken from the qualified electors rolls for various reasons, including conviction of a felony, removal from the county, failure to vote, insanity and death.

DONALD MILLER IS GRADUATE AT NAVAL ACADEMY

Donald Charles Miller, Nevada City, will be graduated from the U. S. Naval Academy next Friday, June 2, in Annapolis, Md. He is the son of the late Charles Miller, associated with the Lava Cap mine, and Mrs. Evelyn Miller, formerly of Nevada City, and now of San Francisco.

His grandmother, Mrs. A. C. Kennedy, still lives in Nevada City.

Mrs. Kennedy and Mrs. Miller are in Annapolis to witness graduation week exercises of the naval academy, having flown there Wednesday.

Miller attended school at Grass Valley and Nevada City, graduating with honors from Nevada City high school with the class of 1944.

Harry L. Englebright, Nevada City congressman at that time, had his attention called to young Miller's scholastic achievements and started to secure an appointment to the naval academy.

He was at Drew Prep school in San Francisco for six months when Englebright died, leaving Miller's appointment papers on his desk.

Miller enlisted in the navy in 1945 and while taking boot training at Great Lakes naval training station, received notification of his appointment to the academy. Congressman Clair Engle completed the task started by his predecessor.

Two days after his graduation, Miller will be married to Miss Margaret Diana Matthews, of Sparks, Md. The ceremony will be performed in Gunpowder meeting house in Sparks.

Miller will become a second lieutenant in the U. S. marine corps upon his graduation.

1948 CENSUS OF TRADE LISTS 340 BUSINESS FIRMS

Retail, wholesale and service establishments located in Nevada county showed a substantial expansion in dollar volume of trade from 1939 to 1948, according to preliminary figures from the 1948 census of business released this week by the bureau of the census, U. S. department of commerce.

The preliminary report showed 340 business establishments in Nevada county at the time of the census.

Retail sales in the county during 1948 aggregated $19,800,000, an increase of 125 percent over the $8,800,000 in 1939, when the preceding census of business was taken. Wholesale sales in the county reached a total of $4,100,000 in 1948 as compared with $1,500,000 in 1939. The service trades included in the census of business recorded receipts totaling $1,000,000 in 1948 compared with $400,000 in 1939.

Employment in the county also rose over the nine-year period between 1939 and 1948 for the above trades. Establishments in these trades reported a combined total of 1,081 paid employees for the work week ending nearest Nov. 15, 1948. This compared to a total of 840 employees reported for the week of Nov. 15, 1939.

These preliminary figures have been derived from a census report on Nevada county, which also includes data for the city of Grass Valley. Final figures, superseding the preliminary data for Nevada county, will be included in a bulletin for the state of California to be issued in several months. Similar data will be made availabe this year in preliminary and final form for each of the counties of the state.

Mrs. Hazel Estes presided at the installation.

Gifts were presenting to Miss Genevieve Kent, Miss Elizabeth Garland and Mrs. Mabel Flindt. John Larue, local attorney, who was a pupil of both Miss Kent and Miss Garland, made the presentations.

John Conway, retiring president, presided for the evening.—Jo Waechter.

ANNEXATION TALKED

Possible annexation with Nevada City or another school district was discussed at a pot-luck dinner meeting of the Gold Flat elementary school Parent-Teacher association Friday evening at the school house.

Robert Hanley and Mrs. Helen March lead the discussion of annexation.

INVASION OF FISHERMEN IS EXPECTED HERE

Nevada county will become the Mecca of thousands of California fishermen at sunup tomorrow morning. If they are not in the county at sunrise for the opening of the trout fishing season, they would have sampled local lakes and streams before the season closes Oct. 31.

The summer trout, whitefish, and salmon fishing season closes one hour after sunset, Oct. 31, in all of California except the Colorado river area, where there is no closed season.

Fish and game wardens advised anglers to consult the list of stream closures contained in the official abstract of 1950 angling regulations. Copies are available without charge at division of fish and game offices and license agencies.

H. I. Snider, district ranger of the Tahoe national forest, said yesterday, "With fishing season opening Saturday we are expectin the first large group of forest visitors of the 1950 recreation season and this is just a word of caution for them to continue their past good cooperation in not smoking, except in bare spots, or causing any fires in those canyon bottoms, since it is a well known fact the ashes from a large forest fire spells death to the fish."

Snider said local road conditions after last winter's heavy snows are as follows:

The Graniteville road is open only a short distance above the village of Graniteville.

The South Yuba road is open to the end or five miles east of Washington.

Bowman road is open only via Bear valley to the upper end of Bowman lake.

Steephollow creek is accessible via Chalk Bluff and Camels Hump approaches.

FRENCH CORRAL SCHOOL HOUSE JUBILEE DANCE IS SUCCESSFUL AFFAIR

The youthful feet of five generations of school children have worn furrows in the floor of the 91-year-old French Corral school house but the closely-knit folk of the San Juan ridge gathered 150 strong in the historic structure Saturday night for a jubilee dance honoring the recent acquisition of the building at a public auction conducted by the board of supervisors of Nevada county.

Mrs. Reno Thatcher, Reno, Nev., philanthropist, by whose generosity the ancient building was returned to the community, was the guest of honor at the jubilee. Mrs. Thatcher was high bidder for the building at $750 when County Clerk Ralph E. Deeble auctioned the structure Friday, April 14. Mrs. Thatcher immediately donated the building to the ridge community in perpetuity.

Ed J. Kohler, North San Juan, hosted and emceed the shindig that lasted into the wee sma' hours of Sunday morning, and repeatedly announced he was not campaigning for supervisor that evening. Eight of the 11 candidates from the fourth district attended the jubilee dance and were introduced to the throng. None made political speeches.

The bell, a collector's item which was being repaired and polished at the time of the sale, was once again in the tower and at frequent intervals pealed forth a joyous tempo in time to the impromptu orchestra and rocking floor and walls. Kay Vance a pianist and composer of note, extracted excellent melody from the time-worn piano, to the accompaniment of Frank Stuart on the tympans, young Gene Stuart on the trumpet, Preston Kohler on the banjo, and Waid Oden on the stringed cat gut.

Women of the community prepared and served a midnight dinner and two cakes were auctioned off by Supervisor Candidate C. L. "Mitch" Painter.

The jubilee dance raised $116 to be applied toward a fund to repair the building.

NEW TYPE CITATION ISSUED BY POLICE

The Nevada City police department Monday issued its first of a new type of parking ticket. According to Police Chief Max Solaro: "Now fines can be collected."

The citations were approved at a city council meeting March 2, when Solaro informed the council that the department had reduced the number of tickets issued because fines were not paid.

A warrant can legally be issued to collect on the new tickets which are similar to those used in Sacramento, according to Solaro.—Doris M. Hedges.

Just Wonderin'

I Wonder if we understand
That voting is a fine art,
And will keep our minds alert
And vote with head as well as heart.

I know a man who boasts that he seldom votes. Oh, yes, he keeps his name on the register and when "some really important issue is at stake," he votes. Otherwise he lets election day pass by him unhonored and unsung.

I Wonder how he knows just which issues are of the utmost importance and which are nonessential. It seems to me that all issues that come up for the voters' consideration must bear a certain amount of importance; so why not become acquainted with them and exercise the privilege of the franchise?

Surely, community affairs are of vital importance; the choosing of a sheriff, a supervisor or a game warden are of concern to us all; that is, if we have even a modicum of community spirit and wish to see our town and city move forward. If we are at all public spirited we must know that every vote is fraught with potential consequences. Many vital issues have in times past been decided by the margin of one vote. Why should any American be a slacker on election day? Oh, of course, there may be those who consider their opinions of no worth; such a man might say, "I don't know anything about the affairs of my community, my state and my nation, so why bother to vote?" Too bad to acquire so abject an inferiority complex. If you are an American, then function; step right up to the polling place on election day and make your wants and wishes known. Register your honest convictions, vote your decisions. You would feel silly if some matter of vital importance lost by the narrow margin of one vote and you knew in your heart that yours was that missing vote. Now, wouldn't you?

Memorial day will soon be here with its tender memories of those who are "just away." Our cemeteries will be bright with fair spring flowers, there will be soft music and many a brave and stirring oration.

In our national places of final rest, bands will play, salutes will be fired and taps sounded. Sleep well, our heroes, sleep well; your gallant deeds and your great sacrifices will never be forgotten, but have we kept faith with you? Have we kept faith?

Summer will soon be knocking at the door and Father Time will turn the key. Spring with all her varied enchantments will slip quietly away and gay summer will take over. Vacation time will be ushered in with the closing of schools and the surging of throngs away from the cities and towns and into the wide open spaces of hills, rivers, lakes and trout streams. Vacation finds us hearing the call of the wild, the open road lies before us.

Let us make courtesy our watchword when we go vacationing. Let us observe the rules of the road, drive with the utmost caution and respect the rights of others who like ourselves are seeking receration in nature's play grounds.

If you love nature, remember the rules concerning camp fires, smoking, etc. Leave the wildwood as beautiful as it was when you came to it and there will be no cause for vain regrets. ADELINE MERRIAM CONNER.

University Women Hear Interesting Talk on Doll Collecting at Meeting

American Association of University Women, Nevada county chapter members were privileged to hear Mrs. H. F. Shaw, who recently spoke on the third most popular hobby at present in the U. S.—doll collecting—at the home of Mrs. Roger Snipe of Grass Valley.

Many of the members brought dolls which had belonged for many years to various members of their families and Mrs. Shaw readily identified them as to what period they belonged to, by their heads and materials used for their bodies and how the hands were connected. Some of these dolls were nearly 100 years old.

Although Mrs. Shaw's most lovable but least valuable doll is the doll of her childhood, the fashion doll which she has in her collection is believed to have been made between 1850 and 1885.

These fashion dolls, which were not considered toys, were popular as far back as 1300 when they were often presented to kings and queens, with their gorgeous wardrobes to be placed in glass cases. They sometimes ranged in height to 30 inches but most of them averaged 20 inches. The gowns were changed often and the mistress of the home often had identical outfits made for herself.

The first doll heads were of wax or papier mache with a little flax glued to the heads to represent hair.

Many collectors belong to the National Doll society which enables them to exchange dolls.

Evangeline Chapter OES Attends Methodist Services

Evangeline Chapter, Order of the Eastern Star, was represented with 20 members at the Methodist church Sunday at the invitation of the pastor, Rev. George Pearson.

He called his sermon "Broadcasting" and the congregation was greatly impressed with his imitation of a present-day commentator talking over the microphone. His sermon, taken from the Bible, reminded many of the recent book of the life of Christ, "The Robe." Without difficulty one could visualize the three men being crucified, and the guards shooting dice to decide who would possess this robe.

In this unique manner the crucifixion of Christ was clearly dramatized.

SEVEN RUNS IN NINTH INNING BEAT ATHLETICS

Eight innings of sparkling play in the field and at the plate were nullified by one inning of fumblelitis by the Athletics and the booming bats of the Colfax Fireballs, and the visitors turned an apparent defeat to victory by scoring seven runs in the ninth inning to win 10-5 here Sunday afternoon in Pioneer park.

The Athletics infield pulled off three brilliant double plays during the game, but four hurtful errors and four Colfax hits altered the complexion of the game.

The Colfax Fireballs came to bat in the ninth inning trailing 5 to 3. Marson pinch-singled for O. Bravo, Emery walked and Nevarez singled home Warren who was running for Marson. Then Ray Perry, Colfax manager, with determination in his stance, put himself in to pinch-bat for Ken Barnes and wrapped a rousing double to center field and the Fireballs had a 6-5 lead and victory. Haddy bobbled Murch's infield grounder and Hutchinson singled Pinch Runner Bravo in. More infield lapses gave the visitors two more runs and Fontana skied to Stack for the Fireballs first out of the inning. Robert Barnes tagged up and scored the visitors' tenth run. With the damage done the Athletics had no trouble retiring the next two batters.

In the home half of the ninth Goldsberry, Stack and Fouyer grounded out to Murch.

The Athletics started out like the game was not going to be a contest at all. The first three Colfax men were outs. In the home half of the first Jones singled, Childers walked and Gagliardi singled to jam the sacks. Goldsberry forced Jones at home but the bases were still filled. Stack fouled out to Sinnock, but Fouyer drew a base on balls and the Athletics had a 1-0 lead. Haddy struck out to end the inning.

Gagliardi opened the third by drawing a lifer on the shortstop's error. Goldsberry powdered one to deep center for a double and chased Gagliardi in with the second home town run. Fouyer got Goldsberry home by pushing one through the shortstop's legs.

Hutchinson singled for Colfax to open the fourth, reached third when Jones let R. Barnes single get away from him and scored when Wojack fumbled Sinnock's grounder. The Athletics' first double player stopped the Colfax threat.

Nevada City made it 4-1 in the fifth frame when Stack forced Goldsberry at second base, advanced to third on Fouyer's two-base hit and scored on Haddy's grounder.

Colfax closed the gap to 4-3 in the sixth inning. Murch singled and Hutchinson powered one far over Jones' head for a triple, the third baseman scoring a few seconds later on Sinnock's single.

Wojack singled to start the eighth, was sacrificed to second by Fisher and scored by Jones' second hit of the game.

The 5-3 lead was blown to smithereens by the Fireballs in the ninth inning uprising.

The second twin killing by the Athletics came in the seventh inning. Emery was on first with a single. Nevarez attempted to sacrifice him but Fisher whipped the ball to Goldsberry on second who relayed it to Haddy. The third double-killing came in the eighth with bases loaded and one out. Sinnock grounded to Fisher who flipped to Fouyer who relayed to Childers.

The Fireballs scored their double-killer in the eighth also when Gagliardi grounded to Murch. A toss to Kenny Barnes on second forced Childers and relay to Sinnock retired the genial garbage man.

YELLOWJACKETS WHIP MINERS IN FINAL CONTEST

The Nevada City high school Yellowjackets baseball team finished a successful season Friday—successful in spite of only three league wins—but two of those wins were against Grass Valley. The second win over Grass Valley was a 6-1 rout in Pioneer park Friday afternoon.

The Yellowjackets wasted no time and scored three runs in the first inning, one in the second and two in the third. The Miners' only run came in the fifth inning.

Dick Penrose, participating in his final athletic contest for Nevada City high school, closed out a brilliant prep career by holding the Miners to three hits, fanning eight and powdering a home run at bat. In the fourth inning Cutberth waited deep in centerfield to spoil him of another long hit.

GRASS VALLEY JOINS RIDGE ADVENTISTS

Thirteen young people from the Seventh-Day Aventist church of Grass Valley participated in the Sabbath school services Saturday at North San Juan, making the historic Methodist church ring with unusual volume as several familiar hymns were sung.

The foreign mission report emphasized the dire need for doctors and hospitals in west Africa. A special offering will be given Saturday, June 24, in all Seventh Day Adventist Sabbath Schools throughout the world to make a beginning in filling that need.

The Scripture lesson for the day was on the subject of the judgment. The final reward or punishment of every individual will be determined from an examination of his word and deeds as recorded in the books above; but pardon is offered now, and if accepted, will also be recorded.

All enjoyed the variety added to the service by a trumpet solo presented by Louis Johnson of Grass Valley, the hymn entitled, "Throw Out the Life-Line."

The North San Juan group will meet with the Grass Valley church on Alta street, for all-day services on Saturday, June 3, beginning at 9:30 a.m. Elder W. J. Harris, Sabbath school secretary for the Northern California Conference, will be present for the occasion. No services will be held in North San Juan that day.

DRESS FORMS

The Home Department met at Seaman's Lodge Wednesday to make dress forms. The next project will be to spend three days upholstering furniture and later to take up the art of making hook rugs.

LOCAL SCHOOL HIGHEST IN PERCENTAGE IN TFSTS BY PLACER COLLEGE

Nevada City high school had a larger percentage of students successfully complete the "Subject A," English fundamentals test given here this spring by Placer college than any other of the seven schools in the college district.

Gordon N. Arlett, dean of men of Placer college, said scores on the American Council of Education psychological examination showed favorable chances for success by members of the senior class of the local school.

Arlett said returns from the basic mathematics test indicated local students conform to national averages, but increase of reading speed was indicated although comprehension was high.

Arlett said the tests indicate probable success or failure in future training and emphasizes the individual's capacity to learn new ideas, operations and attitudes.

The ten students who passed the English examination are Patricia Dames, Ruth Estes, Maxine Ivey, Madge Nelson, Joan Oje, Richard Penrose, Joan Peterson, Jenell Stinchfield, Mary Jo Waechter, and Patricia Thomas.

Why "Moose" Changed His Mind

Last week, parents were calling Moose Jackson on the phone—and kids were hooting at him in the streets. All because Moose fenced in his field near the depot, where the kids like to play ball.

Moose got sore the way folks acted—refused to budge. Then Doc Sherman, who likes to play centerfield himself sometimes, decided to "use a little psychology."

Over a friendly glass of beer at Andy's Garden Tavern, Doc says, "Sorry this came up, Moose. We were thinking of asking you to umpire—what with *your professional experience and all.*" (Moose used to play a little semi-pro ball.)

That did it! Next day Moose put up a stile over his fence. In return, the kids promised not to cause any damage. From where I sit, when you try to understand the other fellow's point of view—like his personal preference for beer or coffee—and then take into consideration the will of the majority, why, things seem to go better all around.

"Doing dishes" is a *cinch* in our new electric kitchen

"Let's plan your new electric kitchen so you'll have more free time to enjoy life!" said our helpful appliance dealer. And that's exactly what we did. Today that dream kitchen is a reality, and two of its best features are the automatic Dishwasher and Garbage Disposer... a wonder team that "does dishes" in such a quick, easy, sanitary way that it's no chore at all. A flick of an electric switch and dishes and glassware come out sparkling clean... food waste disappears down the drain safely and completely. These units, along with a new electric refrigerator and range, ventilator, proper lighting and ample appliance outlets can turn an everyday kitchen into a sparkling, pleasant, easy place to work...at a cost far less than you'd think.

Planning to build or remodel? It will more than pay you to consult your electric appliance dealer at once. With his trained experience he can show you how to save on installation, how best to use your space.

FOREST CREWS START SUMMER PLACEMENT IN BLOOMFIELD AND TAHOE

Because of a small fire started by a recent thunderstorm part of the summer fire protection force will be placed on the Bloomfield district, according to District Ranger H. I. Snider of the Tahoe national forest.

Sam Kasper resumed his duties as lookout man on the Banner mountain location, and Edward T. Small has begun duty as district dispatcher in Nevada City.

Any fire a cooperator finds in the Bloomfield district, which is roughly the area from Five-Mile house on highway 20 to Bear valley, Bloomfield to Meadow lake on the Graniteville road and from the Bear river on the south to the north boundary which is the middle fork of the Yuba river, should be reported to the Bloomfield district dispatcher, phone Nevada City 128, or if no answer call Banner mountain lookout, Nevada City 3-F-2.

Forest users should remember that debris and incinerator burning permits are now required, as well as camp fire permits, and debris and incinerator fires may be started at 8 p.m., not 7 p.m., as it has formerly been.

The White Cloud campground has been opened under the supervision of Lee Bousfield, and the North Bloomfield station will have Ralph Hossinger at a later date. Telephone lines and spring water developments are being put in shape for summer use, added Snider.—Maxine Ivey.

JUNE 1 LAST DATE FOR RANGE BURNING PERMIT APPLICATION

Thursday, June 1, will be the last date for applications for range improvement burning permits, announced Don R. Knowlton, state forest ranger, for persons considering burning this year.

Knowlton pointed out that although the burning will not begin until fall, next Thursday is the deadline for applications, according to state law.

The state forestry office and the Shady Creek suppression station at the Junction of Tyler road and highway 49 accept applications, Knowlton said. — Maxine Ivey.

ASSEMBLYMAN LINDSAY VISITS HERE, HOPES TO BE RE-ELECTED

Assemblyman Francis Lindsay Loomis, was a visitor in Nevada City Monday afternoon and evening. The Republican incumbent, who represents the ten mountain counties of the Sixth Assembly District, faces opposition at the Tuesday, June 6, primary in Attorney Dan Higgins of Auburn.

Lindsay is an orchardist and conservationist who has served two and a half years at Sacramento. By training and avocation he demonstrates an unusual mastery of the problems of water, power, irrigation and conservation.

Lindsay said Governor Earl Warren had signed the two bills which he authored during the recent special session:

AB 49, which makes any section of road released by the state division of highways to a county, a part of the county road system automatically, for purposes of apportionment under the Collier-Burns act. Heretofore it was necessary for the counties to go through the procedure of declaring an additional mileage to their county road system, and a county would have to wait until the following fiscal year before any funds could be received under the Collier-Burns act. Now the mileage addition is automatically taken care of and the funds are available immediately.

The second piece of legislation Lindsay authored was the making of DeWitt state hospital a permanent institution. This will not only release some $190,000 of needed improvement and maintenance work money, but will permit the direct commitment of patients to DeWitt without the necessity of having to go through another institution.

Lindsay stated that he felt the two bills were of particular interest to the mountain counties.

JOE TREDENNICK ASKS CONSTABLE ELECTION

Joe Tredennick, one of three candidates who seek election as constable of Nevada township at the Tuesday, June 6, primary election, was born in Gold Flat in 1880. All his life except seven years he has spent in and around Nevada City.

Starting to work at the Miners Foundry in 1896, he learned the moulder's trade but later switched to mining. He started to work at the New Brunswick in 1911 as a miner, later becoming a foreman and shift boss. His mining career, which closed in 1928, included work at the North Star and other big mines.

A member of Nevada City's Company C at the close of the Spanish American war, he spent the years of the two World wars working in the Charles Taylor shops in Grass Valley. Tredennick says he is not a member of any organizations and that he is conducting an independent campaign for office.

OUR CONGRESSMAN REPORTS:

By CLAIR ENGLE

Stockpiling Funds

The House, in adopting the omnibus appropriations bill last week, provided $633 million in cash and $100 million in contract authority for stockpiling of strategic and critical materials. This represents a reduction of more than $6 million recommended by the bureau of the budget.

Due to a misunderstanding of an amendment offered on the floor during debate, it appears a ceiling of $25 million has been set for the use of stockpile funds for purchases from domestic sources. It generally was thought the amendment would set a minimum of $25 million for domestic purchases, but on reexamination it actually was a ceiling for that amount. An effort will be made to change it in the senate as the friends of mining in congress have long contended that a larger proportion of stockpiling funds should be used at home to help develop critical and strategic minerals and metals.

Mining Aid Compromise

Although time is growing short we are still trying to get through a bill to provide government assistance to the mining industry for conservation and exploration of critical and strategic minerals and metals. The measure, voted out by the house committee on public lands, sets up a $330 million four-year incentive program.

A number of western congressmen appeared before the rules committee to request clearance for floor action, but to date the committee has not taken action. Rep. Sabbath, the chairman, has offered a compromise measure which would cut in half the authoried appropriations for the program. In all probability the compromise will have to be accepted if we are to get a bill through this congress.

Of interest to mining men throughout the district is a recently introduced bill which would authorize the RFC to make capital investment loans of 30 years maturity for development and production of manganese, lead, zinc, aluminum, and other strategic metals. The bill bill provides that the national security resources board shall recommend to the RFC those loans which it believes would aid the national defense and domestic economy.

Dear Sir:

As master of ceremonies and host of the jubilee dance at the old French Corral school held May 20, I beg to say that I feel quite honored and flattered that the "press" was so well represented in the personages of Ken Wray of The "Nugget" and Al Lindsey of the Grass Valley "Union."

Word was sent to us that Mrs. Clayre Lipman and Al Trivelpiece sent their regrets that they could not attend due to previous engagements but extended their good wishes for the success of the evening's affair.

Thanking the "press" again for the courtesy extended, I remain,
Cordially yours,
